

DMM, MGE, Methylal

(PURE)

Description	Clear Liquid, colorless and with a characteristic smell
Water content	N.M.T 0.4%
Purity(GC)	N.L.T 98.0%
Density (20 °C)	0.857-0.862 g/cm ³
Formalin (%)	N.M.T 0.0001 %
Methanol (%)	N.M.T 2 %
Packaging	In polyethylene container
Storage	Preserve in container store in cool and dry place. Keep away from heat and source of ignition
Shelf Life	24 months

General Properties

IUPAC Name

Dimethoxymethane

Molecular Weight: 76.09

Molecular Formula: C₃H₈O₂

Cas registry NO.: 109-87-5

Application

used in synthesis of APIs, and in the manufacture of perfumes, resins, adhesives, paint strippers and protective coatings. Another application is as a gasoline-additive for increasing octane number.

Structure
