

## DMM, MGE, Methyal

### ( TECHNICAL )

Description	Clear Liquid, colorless and with a characteristic smell
Water content	N.M.T 0.5%
Purity(GC)	N.L.T 90.0%
Density (20 °C)	0.857-0.862 g/cm <sup>3</sup>
Formalin (%)	N.M.T 0.01 %
Methanol (%)	N.M.T 10 %
Packaging	In polyethylene container
Storage	Preserve in container store in cool and dry place. Keep away from heat and source of ignition
Shelf Life	24 months

## General properties

### IUPAC Name

Dimethoxymethane

**Molecular Weight:** 76.09

**Molecular Formula:** C<sub>3</sub>H<sub>8</sub>O<sub>2</sub>

**Cas registry NO.:** 109-87-5

### Application

using in synthesis of APIs, and in the manufacture of perfumes, resins, adhesives, paint strippers and protective coatings. Another application is as a gasoline-additive for increasing octane number.

### Structure
